What Do I Still Want To Accomplish?

I would like to mentor my children and other children and young adults.

It gives me great pleasure to inspire young people by sharing acquired wisdom with them. I would like to teach them to stay open-minded and to guard themselves against religious indoctrination.

We all have free will and deserve to choose how we make use of this God-given privilege. The bottom line that I would like to bring across to young people is **The Golden Rule***. **The Golden Rule** is the only rule that is worth pursuing, as it is fully conducive to **Peace and Harmony**. **The Golden Rule** is the only way to attain **this goal** on a worldwide scale.

The Golden Rule is the crux of most religions. The life and teachings of Jesus the Christ of Nazareth centred on this rule. When we apply this rule correctly, we will all become totally selfless and Christ-like. Giving everything away is the only way to be joyful and at peace. Giving up all personal materialistic ambition is a certain way to become totally free and at peace with Mother Earth and all her creatures.

My goal is to live a simple life in harmony with all of creation. My goal is to make a difference and to be the difference through my lifestyle. I am just a normal human being and there are many things I know nothing about. What I know for a fact is that I know very little about most subjects. One of the things I do know is that I am here for only a short while and I look forward to moving on to higher places when my work on earth is complete.

As a leaf falls from its tree during autumn, returns to dust and eventually provides nutrients for the roots, it returns to become part of the tree again, and the cycle continues. When my season comes to an end, whether by fire, snow or chainsaw, is irrelevant. I will remain on this earth and in this body only for my allotted time. It could be 53 years or 93 years, but more likely 73 years. When the time comes, we all return to Mother Earth, i.e. our bodies do. As for the spirit and the soul, reincarnation is very probable. No matter what happens, death is only a change in condition, as is conception. Life on earth is good and the life hereafter promises to be even better. While we are here, we should make the best of the cards that have been dealt to us. If we are unhappy or discontented with our lives, then it is probably time for change. The only way to move forward and experience change is to let go of the past. Clinging to the past is sure to result in misery and discontentment. Sometimes in life, it is time to turn the page and start a new chapter. This is impossible if we keep on clinging to the past. Caution should be taken to avoid negative company and dream destroyers.

I would like to divert my materialistic ambitions to spiritual and meaningful ambitions that may benefit more people than just me and my loved ones. I would like to sow good seed wherever I go. Until my current earthly journey expires, this is just what I will continue to do.

* **The Golden Rule:**

“Do unto others as you would have them do unto you” – Jesus the Christ of Nazareth

Rhythm of Life Lyrics

One percent of the brain is used
The rest of it is only abused
Much too much we need to learn
Most of us are not concerned
Only, if we could share
Giving love, and show you care
I want to be of help
God's Word is the first
Meet the practice building up
Keeping away from blowing up
Training with your mind
Good thoughts of every kind
Positivity in the air
Show the world just what you dare
No step front, no step back
One step forward, two steps back

Chorus:

One step forward, two steps back
Straight line is always better than that
Listen to the rhythm of life and...
Change
One step forward, two steps back
How does it feel when you go like that
Listen to the rhythm of life, and...
You will change
One step forward, two steps back
Straight line is always better than that
Listen to the rhythm of life and...
Change
One step forward, two steps back
How does it feel when you go like that
Listen to the rhythm of life, and...
You will change

Keep the faith, and don't be afraid
Giving things without getting paid
We have got to start living tight
The black people and the white
Many kids they have to die
'Cause they have no food, why?
After that, then, we cry
Because we do not even try
Many countries still fight
Killing people day and night
No one dares to see the light
Every land think that they're right
Drugs sold on the street
Women selling their body heat
No step front, no step back
One step forward, two steps back
